

What Educators are Saying . . .

Low Income, High Achievement

"What an inspiration! *Low Income, High Achievement* should become the foundation for all of our country's teachers working with economically disadvantaged students." – 10th Grade English Teacher

"Excellent workshop . . . the most informative that I've ever attended. Suggest for all teachers at my school." – High School Social Science Teacher

"Thank you! This was so useful and made so much sense. I would not have thought about many of these things if I had not attended today. I will be a much different teacher tomorrow because of this workshop today!" - 4th Grade teacher

"Awesome workshop! Why isn't every teacher and administrator expected to attend this training. I believe what I learned today is absolutely critical for everyone to hear. Thank you for making this an amazingly worthwhile day! - High School Special Education Teacher

"A very interesting workshop. I learned so many things and was exposed to information I had never even considered. I never knew how middle class I was! :)" - 6th Grade English Teacher

Professional Learning Communities

"I think Cindy's message about Professional Learning Communities was a strong message about positive, professional dialog that our teachers and administrators are still talking about. The message was well received and we can't wait for her return in October. Cindy clearly communicates the vision of a PLC and helps teachers realize the potential of a culture that is rich with collaboration." — Deneen Newman, Associate Supt of Educational Services, Soledad Unified School District

"Cindy's *PLC* workshop was an eye opener. Our student learning has improved ten-fold now that we as teachers are more collaborative and understand what it means to collaborate on the difficult issues." – High School Algebra Teacher

"I was very skeptical about PLC's when I first heard our district was moving in that direction. But now that I understand specifically about how a PLC functions, I feel like I'm ready to move forward and embrace this new way of doing business. Thank you, for an open, honest, and enlightening day! I'm now a believer!" - English 9 / 10 Teacher

Substitute Teacher Training

"As a substitute teacher, I never felt as if I had a handle on all of the students all of the time. After participating in substitute training workshop, my confidence is stronger and my ability to teach and engage the students has never been better:" - 6th – 12th Grade Substitute

"Wonderful! Absolutely helpful. I will use every bit of the information provided." - 9th – 12th Grade Substitute Teacher
