Comments (all of them):

- It was a fabulous assortment of strategies. I'll leave with wonderful things that will help our SPs, BTs and ultimately the students. Terrific info. Very interactive. I appreciate your modeling the strategies. Thank you!
- This was great! I am so glad I got this overview before I even start the training this year. I am excited about how this can help me personally be a better teacher and hopefully remember to enjoy the "precious present." Thanks Rick
- Your presentation techniques are fabulous! People responded and enjoyed participation. The strategies you shared will work with BTs and other adult learners. Thanks!!
- You shared your concrete, practical and intelligent experience – I will implement some of them.
- Useful 'stuff!'
- This is one of the best, most helpful workshops I've ever attended. It had good ideas for all teachers regardless of experience. Very useful.
- Nice job Rick! Really enjoyed the day of information – was very useful!
- Going more in order with the overheads would have been more compatible with my earning style. –But that is a small point. Today was OUTSTANDING!
- Everything you talked about is something that can be used. Often, presenters don't offer ideas that can be used by teachers, whether new or veteran. Thanks so much!
- Thanks Rick! I especially liked your comments about "assume the best" and break things into parts." I intend to ask myself "what will my students learn today" everyday.
